This chart identifies officials known or believed to hold leading positions in the various organizations that make up the foreign trade apparatus of the People's Republic of China. Excluded are the commercial attachés serving in Embassies abroad, the provincial foreign trade bureaus, and the provincial branches of the China Council for the Promotion of International Trade and the trading corporations, all of which are involved in varying degrees with China's foreign trade. Available cable addresses of the trading corporations and shipping companies appear in bold CAPS. Names in red identify members of the Politburo and names in green identify members or alternate members of the 10th Chinese Communist Party Central Committee elected in August 1973. The dashed lines linking organizations indicate some directional responsibilities.
